NAPLES SCHOOL DEPARTMENT

REPORT OF SUPERINTENDENT OF SCHOOLS

I believe it can truthfully be said that your schools were never able to render as good educational service as at the present time. Every school is well equipped with teaching material. The buildings are in good repair. Every teacher has had both training and successful experience. We must strive to maintain these favorable conditions, remembering that we cannot fully measure educational progress from year to year but only over a long period of time. Some of the habits, skills and judgments cultivated today, in the pupils, by good teachers, will not bear full fruit until years later; perhaps when the pupils are men and women and school days are forgotten.

If the schools are to prepare the children to live useful and happy lives, more than the three r's must be taught. We must develop character, teach healthful living and cultivate an appreciation of good art and music, because these things contribute so much to success and happiness.

No person would be considered fully educated without some knowledge of the great masters of art and music as well as a knowledge of the great men of history and literature. It is as highly desirable to know something of the world's famous pictures and musical compositions as to know about great statesmen and imperishable books.

That music and art appreciation should be taught in the public schools there is no doubt, but it is a problem to accomplish it in rural communities. Our teachers are doing the best they can with the training and materials at their command. Music should be taught by teachers specially trained for the work, and such teachers demand more pay than small towns can afford to give.

It is not the work of the public schools to train solo singers, but rather through group instruction, to teach

children to sing together for pure enjoyment; to know how musical sounds are written; to distinguish between different kinds of vocal and instrumental music; to have some knowledge of the great masters and their works, and above all to show them how to get real pleasure from this ancient and universal form of expression. Some will be led to further study either as a source of pleasure or profit.

I am glad that the people of Naples are thinking about school music. I have hesitated to propose such a thing because our school year is so short that we can hardly accomplish the work already laid out. If the town will lengthen the year to thirty-five, or better, to thirty-six weeks, I should be heartily in favor of devoting a reasonable amount of time each week to the systematic study of music.

I think we could have thirty-five weeks of school next year without increasing our appropriation unless there should be unforeseen expense.

The exact cost of introducing music in the schools is impossible to state, but I can make an estimate. Books placed in the hands of all pupils from the third to eighth years, inclusive, would be about \$55.00. A teacher might be available at from five to eight dollars per day not including transportation. All schools can be served in one day, each week. Cost of conveyance would depend on whether the teacher drove her own car or hired a livery car and on whether she lived in town or came from outside. She must hold a State certificate and if she taught one day per week the town would receive from the State one-fifth of the allowance for each teaching position or about \$20.00. I would set the minimum cost of instruction at \$280.00 for thirty-five weeks, which, with the books, would make a beginning cost of \$335.00. If the course was started next fall, which would probably be the case, only half this amount would be used before another town meeting.

The teacher at Edes Falls resigned at the end of the fall term. I was fortunate to be able to replace her with an experienced and very capable teacher.

The total resources of the school department for the year were \$9,076.40; total expenditures, \$8,849.14, leaving a balance of \$227.26. On account of smaller balances in the supply and book accounts, I recommend an increase in these appropriations, but a decrease in the repair appropriation will make the total budget a little less than last year.

REPORT OF THE SCHOOL DEPARTMENT

REPORT OF SUPERINTENDENT

To the School Committee and Citizens of Naples:

I submit my twelfth annual report.

The annual town report is the only medium through which I can reach every taxpayer. I intend to present some facts for your thoughtful consideration. Read and ponder these facts as you would the report of the directors of a business in which you had money invested. Indeed, education is the biggest business in which our people are engaged. The nation's investment in 1931 was \$3,200,000,000. Our educational system is a great stabilizer of business. Nearly thirty million boys and girls, young men and young women must be clothed, fed and housed while they attend school. To teach this vast army requires one million twenty-nine thousand teachers. Schools make business and business can well afford to support schools.

We are proud of our standard of living among the common people. It is education that has created the demand for all products beyond the bare necessities of food, clothing and shelter.

However, the present unprecedented business depression proves that education has not kept pace with the needs of society. Our political and financial leaders have plunged the country into chaos and so far have failed to find a real remedy, although plenty of tonics have been suggested. Crime among the young is on the rampage. War is still taking its toll of blood and treasure. The task which lies ahead of your children and mine is the most complicated any generation has ever faced since the world began. Capital has been organized and labor has been organized and each has been so absorbed in getting two dollars for one or one dollar for nothing that they failed to see the breakers ahead. Now we are on the rocks. If the ship of state does not go to pieces (and it will

not), we would better make a new start. Where shall we start? In the public schools. Employ the best brains in the country to teach citizenship. If we can pay a baseball player \$80,000 a season to knock homeruns, we can pay our teachers a living wage to train our children how to make this world a better and safer place in which to live. We need more and better education as we never needed it before.

The men and women of tomorrow are in our schools today. They look to us to give them the education they need. If you want a fit world in which to spend your old age, look to the training of your children. This training is being trusted more and more to agencies outside the home. The most important of these is the school and the most important item of the school is the teacher.

Economy is the slogan of the hour. It is a good one and ought to have been placed in the headlines several years ago. Since schools take a considerable portion of the local tax money, they at once become a point of attack. The average citizen sees a rather large amount of money disappear and only a small amount of it reappear in tangible form. He sees a new building or a new fence or some playground equipment, but he does not see a teacher trying to convince a boy that he ought to get his lesson by his own effort instead of copying it from his neighbor. He wants his son or daughter to learn self-control and fair-mindedness and healthful habits. He may do some preaching, but he has not much time for teaching. That is expected of the public school teachers. What these lessons properly taught will be worth to the boys and girls and to the community no man can estimate in dollars and cents. So without giving the matter much thought Mr. Average Citizen says: "Oh, well, one teacher is as good as another. Let the law of supply and demand take its course. Cut the school money and nobody will know the difference."

Cost of instruction is the largest item of our school budget. If the budget is severely cut it means a cut in wages which are already too low. If teachers' wages had been inflated as were

other wages, they could stand a cut. To cut them now is to put teachers in the class with unskilled labor; to make their vocation a job and not a profession. The value of labor may vary because the value of the product varies. The value of an education has steadily increased and was never greater than it is today. Bricklayers, plumbers, carpenters, railroad men, shoeworkers and many other workmen have long been organized and have regulated their own wages. Teachers have never been organized for wage increase. They have always taken what the public more or less grudgingly doled out, and in only a few places, in very recent years, have their incomes been a living wage. By living wage I mean an income that will allow teachers to pay their board the year around, to dress, study, travel and enjoy some recreations and still leave sufficient for a savings investment that will provide a living when they have outlived their usefulness as a teacher. A living wage would depend on the locality where the teacher works. I could show you the average salary of our elementary teachers, which is \$15.16 per week per year, is not a living wage.

Too many people look upon teaching as a job. Too many teachers themselves consider it as such. Good teaching is not a job—it is a profession. It is fast becoming as scientific as medicine and as exacting as the law.

We hear it said that there is a surplus of teachers. There is not a surplus of *good* teachers; there never has been and there never will be. It requires more than a diploma from a normal school or college to make a good teacher. What we want now is teachers to teach children not subjects. Teachers with imagination to see beyond the four walls of the school-room. Teachers who see the capabilities and possibilities in each child and teachers with skill and judgment enough to develop them. Such teachers are seldom out of a position. They are worthy of their hire.

I can fill our teaching positions with teachers at much lower salaries, but they will be poorer teachers and our chil-

dren will suffer for it. Have not we "mortgaged the birth-right" of the next generation about enough? Is it not wiser to sacrifice some of our own pleasures or luxuries? Let me remind those who have no children that the security of their property and the safety of our country will soon be in the keeping of the boys and girls now in our public schools.

The report of the music teacher appears elsewhere in the town report. An excellent beginning has been made. It was hoped that we might give a public demonstration of what the children can do before town meeting, but epidemics of whooping cough, measles and flu have made attendance irregular, and it seems wiser to postpone the demonstration until the end of the term.

If the music is continued, as I hope it will be, some new books will be needed, as we supplied only books for beginners this year. It will require about \$350.00 to supply books and weekly instruction for the next school year. About \$200.00 would provide for a lesson once in two weeks.

An unexpected conveyance at Kimball's Corner accounts for an overdraft in the common school account.

The school buildings are in good general repair. The recommendation for repairs will be only enough to care for the overdraft, the insurance and general cleaning.

We lost two excellent teachers when Mrs. Stigman at the village grammar and Miss Lincoln at Edes Falls did not renew their contracts.

Miss Helen Stickney took the village grammar at the opening of the fall term, and Miss Ellen Chaplin is teaching at the Falls. Both are proving very satisfactory. The Lord School and the village primary are in charge of Mrs. Trott and Miss Taylor, respectively. These teachers have proved themselves well worthy of the confidence and praise of their communities.

I wish to thank the citizens for their generous financial support and the school committee for coöperation and kindly advice.

Respectfully submitted,

GUY M. MONK,

Superintendent of Schools.

DEPARTMENT OF MUSIC

To the Citizens of Naples:

It is my pleasure at this time to submit a brief report of the Department of Music in Naples. I began my work in the Town of Naples, September 15, 1931. Up to that time music had never been taken in the schools as a study. Therefore, it seemed necessary to start all grades at the beginning in order that they might understand the fundamental principles upon which music is based. Because of this, it may seem a waste of time and money to many who are not familiar with the essentials which must be learned first when they hear the short pieces that it has seemed wise to teach ever the older pupils as a foundation. However, before taking the more complicated music, all pupils must become acquainted with the simple terms which are so commonly used in all music. We find these made clearer in the beginner's pieces where the students can more readily understand them.

Up to the present time, which is a little over one-half the school year, all schools in Naples have learned at least forty-five songs, have a beginning in Musical History, in Musical Appreciation, and in Rhythmic Work. We are now working on an operetta which will include the pupils from all schools in Naples. We are in hopes to present this in the spring, as soon as travelling will permit.

I wish to take this time to thank the teachers, Superintendent, parents and all associated with the schools for their hearty coöperation. If there is anything fine in music, if the knowledge of music has brought more culture to living, and musical appreciation has elevated the trend of thought,

then your children have the opportunity to absorb it. The spirit of play and the imaginative world of little children are delightfully and vividly expressed through music. Music is a stimulating force which appeals to children; it vitalizes their daily lives; it arouses and satisfies their desire for rhythmic expression; it creates and develops moods; it intensifies moods already created; and it is one of the most potent means for promoting social relationships.

Respectfully submitted,

MONA G. GREENE,

Supervisor of Music.

REPORT OF THE SCHOOL DEPARTMENT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples, I submit my thirteenth annual report:

Last year I discussed school matters at some length in my report. The situation in small towns has not materially changed. I wish you would take the time to re-read that report. I can assure you that school officials are fully aware of the taxpayers' burden. Property owners are bearing an unfair proportion of public expense. Two changes are inevitable: the reduction of public expense and new forms of taxation which will relieve the crushing burden on property. Both of these changes are bitterly opposed by powerful groups with selfish interests.

Education is a comparatively large item of public expense, especially in rural communities, although in the nation as a whole only $3\frac{1}{3}\%$ of our income is spent for schools. When it comes to a question of how much we shall reduce the cost of schools, each state, city and town should decide the matter on the basis of the relative importance of schools to other public activities and the ability of the community to pay. That school officials should do everything in reason to help reduce taxes, admits of no argument. Schools must bear a fair proportion of public expense. But how many voters know what a fair proportion is and where the reduction can be applied with the least permanent injury? Here is where the advice of your Superintending School Committee should have some weight.

Last year the popular cry was a 10% cut in teachers' salaries. How many stopped to think that in many of our cities and towns the elementary teachers could be cut 10% for five years in succession and still draw more salary than the best paid elementary teacher in Naples?

This is how school costs worked out in Maine this year, according to figures issued by the State Department of Education. The average reduction in school maintenance for the

entire State was \$1.62 per thousand valuation, or 12.5% less than last year. The average reduction for all municipal purposes was \$2.69 per thousand of valuation, 4.8% less than last year. The schools took a cut of \$1.62; other public activities, \$1.07. Approximately 30 cents of the taxpayers' dollar goes for the support of public schools. Therefore, there was a reduction of 12.5% applied to less than one-third of the tax dollar and 2.5% applied to the other two-thirds.

This year the taxpayers will look for still further reductions in school costs. We are starting with a reduction of at least \$344.33 in State Aid. It can only be offset by cutting expense or raising that much more. I have figured a budget which will save the town practically 10% in total school appropriations. It means a 20% cut in the teachers' wages next year, which reduces them to the point where they will take another position at the first opportunity.

By combining conveyance routes a saving of 23% was affected. Unfortunately, we were obliged to resume a conveyance to the Lord School because of a family with children moving into the house beyond James Mains'.

I am at fault for the large overdraft in the music appropriation. I had in my mind that about two hundred dollars was available for the last half year and did not check up the account. It was the original plan to have a lesson once in two weeks but in order to be sure of good roads we decided on weekly lessons. The music was much more satisfactory this fall than last year and the town has received good value for the money spent, but I did not intend to spend it in advance. Music should continue as a part of school work, under the direction of the regular teachers.

The annual physical examination by the county nurses shows the following results: Number of pupils enrolled, 97; number examined, 97; number 10% underweight, 27; number 20% overweight, 1; defective vision, 7; defective hearing, 0; defective teeth, 37; enlarged tonsils, 21; pediculosis, 0; number with defects, 65; number without defects, 32; notices sent to parents, 65; health talks to pupils, 9; corrections, 31.

The following budget is slightly more than a 10% reduction over last year's appropriations:

Common schools,	\$4,734.00
High school,	2,200.00
Textbooks,	25.00
Supplies and miscellaneous,	125.00
Repairs, insurance, cleaning,	0.00
	—————\$7,084.00

Our generation has prepared tremendous problems for the next one to solve. The future safety of our American ideals and institutions depends on our schools. When war threatens we sacrifice without a murmur. The economic crisis is more threatening than war. Is it worth any sacrifice to prepare children to save themselves and us?

"Economy is always wise spending."

Think carefully. Vote intelligently.

SOUND EDUCATION THROUGH GOOD SCHOOLS
IS THE BEST INSURANCE THE TAXPAYER CAN
BUY.

Respectfully submitted,

GUY M. MONK,

Superintendent of Schools.

Art. 14. To raise money for town charges.

Art. 15. To see what sum of money the town will raise for highways and bridges.

Art. 16. To see what sum of money the town will raise to pay the salaries of town officers.

Art. 17. To see what action the town will take in regard to plowing out the highways next winter.

Art. 18. To raise money for snow bills.

Art. 19. To raise money to pay for cutting bushes in highways and burning where necessary.

Art. 20. To see if the town will vote to raise \$300.00 for C. W. A. work.

Art. 21. To see if the town will vote to let the plowing of the improved highways with truck to the lowest bidder, model and size of truck to be considered. Bidder shall be a resident.

Art. 22. To see if the town will vote to raise money, and if so how much, for the maintenance of State and State aid highways during the ensuing year within the limits of the town under the provisions of Sections 9 and 18 of Chapter 25 of the Revised Statutes of 1916.

Art. 23. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 20 of Chapter 28 of the Revised Statutes of 1930.

Art. 24. To see what sum of money the town will appropriate and raise for the improvement of the section of State aid road as outlined in the report of the State Highway Commission under the provisions of Section 19, Chapter 28, of the Revised Statutes of 1930.

Art. 25. To see what sum, if any, the town will vote to raise in accordance with the provisions of Sections 26 to 32, inclusive, of Chapter 28, of the Revised Statutes, for the construction of a State highway extending from State aid road, No. 5, and running southerly to the Casco town line.

Art. 26. To see what sum, if any, the town would recommend to take from the joint State aid account for the purpose of applying bituminous surface treatment to State aid roads built within the past five years, in accordance with the provisions of Chapter 271 of the Public Laws of 1931.

Art. 27. To see if the town will vote to authorize the assessors to rescind any amounts appropriated by the town for State aid highway construction in excess of the amount required to meet State apportionments.

Art. 28. To see if the town will vote to raise a sum not less than \$500.00 for the maintenance of improved sections of third class roads or to be used in conjunction with the State apportionment for the construction of third class roads.

Art. 29. To determine the amount of compensation to be allowed the tax collector, the rebate to be allowed taxpayers, and raise money for same.

Art. 30. To see if the town will vote favorably on the following article, That for the purpose of procuring a temporary loan to and for the use of the Town of Naples to pay indebtedness of said town due and to become due during the present municipal year, the town treasurer be and he is hereby authorized and directed to borrow from time to time a sum or sums not exceeding in the aggregate \$10,000.00, and to execute and deliver the note or notes of the town therefore signed by the town treasurer and countersigned by the selectmen of the town.

Art. 31. To see if the town will vote to pay the school committee \$30.00 and raise money for same.

Art. 32. To see if the town will vote to raise a sum of money for the improvement of cemeteries.

REPORT OF THE SCHOOL DEPARTMENT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples, I submit my fourteenth annual report:

I am glad to report that the various accounts in the School Department all show a favorable balance. There is no particular credit due school officials who economize at the expense of the children for the sake of showing a surplus of funds at the end of the year. Money is appropriated to be used. We intended to use it. The budget was figured very carefully. Teachers and conveyors were given a 10% cut in wages. We were told to expect a 20% cut in State aid and figured on that amount. Fortunately when credit was given on the State tax we found we had received only a 10% reduction. It is not safe to assume that we shall fare as well next year.

During the summer we were informed that the children at Kimball's Corner could no longer attend the Larrabee School in Sebago, as that school would not be opened in the fall. Mrs. Dr. Buck helped solve the problem by offering the use of a room in her house for a schoolroom if the town would equip it and furnish a teacher. As the village schools were already overcrowded and conveyance would be difficult and expensive, the Committee decided to accept Mrs. Buck's offer. A Naples girl, Phyllis Marshall, was willing to act as teacher. She is doing very well and the plan seems to be satisfactory. There are five children enrolled.

Under usual circumstances such a small school is not profitable, but in this case I think its maintenance is justified. I recommend that the town act favorably on the article in the Warrant designed to give the Committee authority to continue the school if they deem it advisable.

If you believe as I do, that we have an excellent corps of teachers, I hope you will coöperate with them in every way possible. I know of no teachers who are giving more conscientious and devoted service.

I also want to say a word of praise for the school conveyors, who are giving excellent service at a very small per capita cost. Probably there is no item of school administration which gives as much trouble as conveyance. Conveyance was never intended as a convenience or an accommodation, but to meet a real necessity. It is left entirely to the judgment of the School Committee to determine whether or not conveyance is necessary. Many parents who would never think of asking the town for food or clothes for their children will demand conveyance. The expense to the town often exceeds the entire tax contribution of the parents. Undoubtedly in every town some children are conveyed who could walk without harmful results, and some children walk who would be benefited by conveyance. The desire on the part of parents that their children be conveyed is not a just basis for furnishing conveyance at the expense of the taxpayers.

I sincerely appreciate the coöperation of the School Committee and citizens, and whether I continue to serve you or not, I hope the education of your children will continue to be a matter of first importance to the town.

Respectfully submitted,
GUY M. MONK,
Superintendent of Schools.

WARRANT FOR TOWN MEETING

*To Clarence L. Emerson, a Constable of Naples, County
of Cumberland, State of Maine,* GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said Town of Naples, qualified to vote in town affairs, to meet at the town house in said town on the fourth day of March, A. D. 1935, at ten o'clock A. M., to act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To elect a town clerk.

Art. 3. To see how many road commissioners the town will vote to elect or authorize the selectmen to appoint, if any, or to make provisions for the maintenance of the highways.

Art. 4. To choose all other town officers required by law to be elected by ballot for the municipal year of 1935.

Art. 5. To choose all other town officers and administer oaths to all town officers chosen.

Art. 6. To determine what sum of money the town will raise for the support of common schools.

Art. 7. To determine what sum of money the town will raise for high or secondary school purposes.

Art. 8. To raise money for textbooks.

Art. 9. To raise money for repair of schoolhouses and insurance.

Art. 10. To raise money for school supplies and incidental expenses.

Art. 11. To raise money to pay undertaker's bills.

Art. 12. To raise money for support of poor.

Art. 13. To raise money for town charges.

Art. 14. To see what sum of money the town will raise for highways and bridges.

Art. 15. To see what sum of money the town will raise to pay town officers' salaries.

Art. 16. To raise money for snow bills.

Art. 17. To raise money to pay for cutting bushes in highways and burning where necessary.

Art. 18. To see if the town will vote to raise money, and if so, how much, for the maintenance of State and State aid highways during the ensuing year within the limits of the town under the provisions of Sections 9 and 18 of Chapter 25 of the Revised Statutes of 1916.

Art. 19. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 20 of Chapter 28 of the Revised Statutes of 1930.

Art. 20. To see what sum the town will appropriate and raise for the improvement of the section of State aid road as outlined in the report of the State Highway Commission (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Section 19, Chapter 28, of the Revised Statutes of 1930, or under the provisions of Section 3, Chapter 175, of the Public Laws of 1933.

Art. 21. To see what sum, if any, the town would recommend to take from the joint State aid account for the purpose of applying bituminous surface treatment to State aid roads built within the past five years, in accordance with the provisions of Chapter 271 of the Public Laws of 1931.

Art. 22. To see if the town will vote to raise a sum not less than \$650.00 for the maintenance of improved sections of third class roads or to be used in conjunction with the State apportionment for the construction of third class roads.

Art. 23. To determine the amount of compensation to be allowed the tax collector, the rebate to be allowed taxpayers, and raise money for same.

Art. 24. To see if the town will vote favorably on the following article: That for the purpose of procuring a temporary loan to and for the use of the Town of Naples to pay indebtedness of said town, due and to become due during the present municipal year, to be paid out of money raised by taxation during the present municipal year, the town treasurer be and he is hereby authorized and directed to borrow from time to time a sum or sums not exceeding in the aggregate \$10,000.00, and to execute and deliver the note or notes of the town therefore signed by the town treasurer and countersigned by the selectmen of the town.

Art. 25. To see if the town will vote to pay the school committee \$30.00 and raise money for same.

Art. 26. To see if the town will vote to raise a sum of money for the improvement of cemeteries.

Art. 27. To see if the town will vote to raise \$180.00 for mothers' aid.

Art. 28. To see if the town will vote to raise \$1,000.00 for bridge loan and \$175.00 for interest charges on town debts.

Art. 29. To see if the town will vote to raise the sum of \$100.00 to be used towards helping pay for the booklets advertising Naples and the Long Lake Region.

Art. 30. To see if the town will authorize the school committee to maintain a school at Kimball's Corner, if they deem it advisable.

Art. 31. To see if the town will authorize its officers when employing men whose taxes are in arrears, to withhold one-half of the wages earned until all tax obligations to the town have been fully met.

Art. 32. To see if the town will raise and appropriate the sum of \$200.00 for blister rust control; to this amount the State will add the sum of \$100.00. Local labor will be used.

Art. 33. To see what action the town will take relative to placing directional signs at road junctions, similar to those being erected by the State, and raise money for the same.

Art. 34. To see if the town will vote to extend the present cement sidewalk to a point past Chas. Morris's house, and raise money for the same.

Art. 35. To see if the town will raise a sum of money not to exceed \$25.00 to be expended on the clay hill just beyond Tingley Brook Bridge on the Kansas Road.

Art. 36. To see if the town will raise a sum of money not to exceed \$100.00 to gravel the road near William Ridlon's place.

Art. 37. To see if the town will raise the sum of \$100.00 to gravel Dillingham's flat and repair a bad place near Mrs. Irving Proctor's.

Art. 38. To see if the town will raise the sum of \$50.00 to maintain the grounds in front of the public buildings.

Art. 39. To see if the town will vote to raise a sum of money not to exceed \$125.00 for tarring the road past the Lake House, which was constructed by FERA.

Art. 40. To see if the town will vote to raise the sum of \$50.00 to gravel the road near the James Mains place.

Art. 41. To see if the town will vote to raise a sum of money to assist in the publication of a history of the Town of Naples that is being prepared by Llewellyn Barton, and determine the amount.

Art. 42. To see if the town will vote to elect a school building committee of three to work with the school committee and the selectmen to study the possibilities for a consolidated school building.

Art. 43. To see if the town will vote to raise \$100.00 to be expended on the Kimball's Corner road, continuing last year's work.

Art. 44. To see if the town is willing to consider any favorable proposals for beautifying and maintaining the town cemetery and receive such gifts as may be available through the generosity of any and all interested people.

Art. 45. To see if the town will welcome proposals for State or Federal aid on a project at or near the former steamboat landing and channel, and to accept and maintain any wharves or landings that may be contributed.

Art. 46. To see if the town will vote to raise a sum of \$100.00 to be expended on the Lamb's Mill road, continuing last year's work.

Art. 47. To see if the town will vote to exchange the old snow removal equipment for a new speed truck plow.

Given under our hands at Naples, this eighteenth day of February, 1935.

FRANK O. PITTS,

MYRON L. WALKER,

ALBERT W. PLUMMER,

Selectmen of Naples.

CEMETERY TRUST FUNDS

No money for maintenance has been drawn from these accounts during the year. It has seemed best for the town to meet these obligations and allow accrued interest to be added to the depleted funds remaining after bank failures.

The accounts on February, 1935, are as follows:

The H. M. Clark Fund:

Bank Book No. 252257, Maine Sav. Bank, \$ 46.80

The O. A. Ingalls Fund:

REPORT OF THE SCHOOL DEPARTMENT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples:

I submit my fifteenth Annual Report.

The citizens of Naples have manifested a growing interest and pride in their schools during the past year. With the help of the CWA, every school building has been painted inside and outside, the Lord schoolhouse has been shingled, windows have been added at the Village Primary and other repairs made.

Owing to the fact that the Federal aid for repairs did not arrive until schools opened, some time was lost while the work was being done. Part of the time has been made up and the balance will be made up later.

A valuable addition to the school plant was the purchase of the field, adjacent to the village schools, for a playground.

There has been but one change in the personnel of the teaching force. Miss Chaplin resigned at Edes Falls to accept a better position, and Miss Phyllis Marshall was transferred to take her place. Miss Ruth Pitts took Miss Marshall's place at Kimball's Corner. Although Miss Taylor changed her name to Mrs. Burnham, she continues to teach the Village Primary with unabated zeal.

By a wise vote of the School Committee, the worn-out textbooks are being replaced by new ones. With replacements taken care of at this time, it is hoped that next year's textbook money can be used for new material.

I hope the time is not far distant when school committees will consider a radio an indispensable part of school equipment. The cost is now almost negligible. The value of the radio to supplement the work of the teacher can hardly be estimated. When I think of the educational programs in music, literature, science, history, drama and current events which every day fill the atmosphere in every

schoolroom awaiting only an investment of \$20.00 to become audible to all the children, I wonder that parents do not demand radio equipment. Here is knowledge and entertainment beyond the power of any teacher to provide for almost nothing.

We have received the sum of \$160.00 from the State Equalization Fund for the purchase of playground equipment. We ought to have about as much more to provide good, durable and safe equipment for each school.

Further information on the schools will be found under School Statistics.

I greatly appreciate the continued support of citizens and School Committee.

Respectfully submitted,

GUY M. MONK,

Superintendent of Schools.

REPORT OF THE SCHOOL DEPARTMENT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples:

I submit my sixteenth annual report.

It is not easy to explain a mass of figures without going into great detail. The selectmen's report shows exactly where every dollar has been spent, but it does not show why certain services cost more this year than last or why they will cost more next year than this. Ample funds were allowed in the budget of last February had no new demands been made. As it was the school committee wisely decided to relieve the overcrowded condition of the village schools by transferring the pupils along the Portland Road to the Lord School. This added \$5.00 per week to the cost of conveyance. An insurance law which went into effect July 1, 1935, compels school conveyors to carry personal liability and property damage insurance. This adds \$2.83 per week to conveyance. These extra charges have been partly offset by discontinuing the board of James Mains. These increased costs, including salary of the music supervisor, have been in effect only half a year. The budget for 1936-37 must provide for a full year. In planning the appropriation for common schools, it must be remembered that instead of starting the year with a balance of \$297.30, as last year, we have a small deficit of \$66.22. It means that exactly the same expenditures in 1936-37 as in 1935-36 would require an appropriation increase of \$363.52. To this must be added the extra costs above mentioned. The budget I submitted to you does not provide for any increase in teachers' salaries, although the average salary paid teachers in Naples is \$186.48 less than the average for women elementary teachers over the State. I would strongly recommend that the budget be increased enough

to allow paying the Lord School teacher a dollar per week more, beginning with the fiscal year. She signed her contract to teach a school of seven or eight pupils. The change of conveyance plans gave her more than three times that number.

We all regret the passing of Mr. Blake who, for several years, took good care of the village schools.

The transfer of Ruth Pitts to the Lord School, where she is doing good work, created a vacancy at Kimball's Corner. This is being very nicely filled by Esther MacKenzie. Although this is Miss MacKenzie's first experience, she has shown a fine spirit, a real interest in her job, and many qualities which indicate continued success. Miss Stickney, Mrs. Burnham and Mrs. Bosworth are doing their usual high grade of work in their respective schools.

While the transfer of some twenty pupils from the Village to the Lord School has more evenly distributed the teaching load, the problem of properly housing the children of Naples is by no means solved. The poor lighting, poor heating and ventilating, inconvenient water supply and unsanitary toilets still call for attention. I am especially hopeful that we shall not allow another year to pass without providing every schoolhouse with a set of screens of some sort. The unspeakable conditions due to the swarms of flies which invade the school rooms in the spring and fall should no longer be tolerated.

Playground equipment which was purchased in the early fall arrived too late to be installed before snow came. It will be set up as soon as the ground is suitable in the spring.

I feel that excellent progress, under the able direction of Mrs. Grace Richardson, is being made with school music. The room teachers seem glad to coöperate and the children seem anxious to learn. To get satisfactory results, music must be studied year after year like arith-

metic or reading. I hope nothing will be allowed to crowd this subject out of the school program.

Further facts regarding your schools will be found under school statistics.

I appreciate and am grateful for the many manifestations of interest which the school committee and citizens have shown in the progress of their schools.

Respectfully submitted,

GUY M. MONK,

Superintendent of Schools.

REPORT OF MUSIC SUPERVISOR

To the School Officials and Citizens of Naples:

Music in all the schools has been received with interest and enthusiasm. The coöperation of the teachers is very gratifying and I feel much has been accomplished in the short time I have been teaching in your town.

The children have had their necessary drill work on rote songs, syllable reading and song interpretation.

Two-part singing has been introduced in Miss Stickney's school recently and is progressing well.

My desire and ambition is to impart to your boys and girls a tangible knowledge of music that will add a richness to their entire lives.

Respectfully submitted,

GRACE M. RICHARDSON,

Bridgton, Maine.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples :

I submit my seventeenth annual report.

Since my last annual report there have been several changes in the personnel of the school system. Mrs. Hazel Burnham, primary teacher, resigned at the end of the winter term and Miss Helen Stickney, of the village grammar, and Mrs. Phyllis Bosworth, at Edes Falls, resigned at the end of the spring term. The school committee decided it was advisable to close the Kimball Corner School, and the teacher, Miss McKenzie, was transferred to Edes Falls. Shortly before schools opened, she resigned and Miss Wilma Flint was engaged. After teaching six weeks, Miss Flint resigned and Mrs. Lida Trott was elected to complete the year. The school is now progressing satisfactorily under her direction. Miss Esther Ridlon and Miss Margaret Loring were elected to teach the Village Primary and Grammar Schools, respectively. These teachers, while lacking the long experience of the previous teachers, have labored earnestly to maintain good schools. In the Grammar School the problem of discipline has been giving us much concern. A few boys and girls seemed to think it was smart to annoy the teacher and disturb the school. Any teacher with 34 pupils in four grades, attempting to hear 19 classes in five hours of teaching time, is a very busy person. If she is continually interrupted by pupils who refuse to obey simple rules of order and want to spend their time in idleness and mischief, the work of the school is seriously retarded. Several things may contribute to this discipline problem. Some children are not taught obedience and good behavior at home. The teacher often has too much to do and cannot provide interesting work for spare time. The school-house is poorly heated and ventilated, resulting in the children being restless and uncomfortable.

An active interest and coöperation on the part of parents, plenty of interesting work with up-to-date books and teaching materials, with pupils housed in sanitary and comfortable surroundings, are a better cure for discipline troubles than a club and a reign of terror.

The untimely death of Clarence Emerson, who for several years very satisfactorily conveyed school children, was deeply regretted by all who knew him.

Some badly needed repairs were made on the Edes Falls toilets during the summer, and all schoolhouses were provided with screen doors and window screens.

Since the well water on the town lot has been condemned as unfit for drinking, the need for a suitable water supply for the village schools is more urgent than ever.

We are much in need of new and more up-to-date textbooks in several subjects, especially Civics, Health, Arithmetic, Science and supplementary reading. Not only will new books increase the efficiency of the teaching, but by making the studies more interesting, they will help to solve the discipline problem.

The amounts in the following budget for the different items may be more or less than last year, but the total is \$691.00 less :

Common Schools, \$3,775.00	High School, \$1,400.00
Textbooks, 300.00	Supplies, 200.00
Repairs, 100.00	

Respectfully submitted,

GUY M. MONK.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples:

I submit my eighteenth annual report.

The only event of importance which happened in the school department between February and June was the resignation of Miss Margaret Loring and the election of Mrs. Greta Mendelsohn to take her place in the Village Grammar School. In June the Village Primary and Edes Falls teachers resigned and their places were filled by Miss Susie Walker and Miss Hazel Gurney, respectively. The new teachers are rendering good service. Teachers cannot be at their best until they become acquainted with the people of the community, especially the parents.

Miss Pitts and Mrs. Mendelsohn are continuing to do their usual high grade of teaching.

Late in the summer, the agitation for a new central school building came to a head with the report of the special building committee which is printed elsewhere. This committee comprised the School Board, the Selectmen and a citizen's committee, composed of Mr. Atkinson, Mr. Philbrick and Mr. James Chute. After a careful study of conditions and possibilities, the committee recommended building a four-room building, estimated to cost about \$12,000.00. At a special town meeting, the report was presented and the recommendations adopted by a good majority of those present. As soon as the results of the meeting were known, a counter movement was started which resulted in a second special meeting at which the building vote was rescinded. Perhaps public opinion is too evenly divided at present on the question of a modern schoolhouse to make it wise to build. Before such a large investment is made, in a small town, an unquestioned majority of the citizens should be in favor of it. It is

hard to be patient in the face of what seems like indifference to a real need, but we know the demand for better housing will come. In the meantime, the children of the 20th century must continue to get their local education under 19th century standards.

Last year appropriations were cut to the limit because of some balances on hand. In common schools we have actually spent \$311.25 less than last year. It should be noted, however, that no charge has been made against the school department for fuel furnished by the town. This amounts to over \$100.00.

The thing which has thrown our budget all out of balance this year is the unlooked-for increase in high school enrollment. There were 21 enrolled in the fall of 1936. There have been enrolled this year 34, an increase of 13 at an added expense for the last half of the fiscal year of some over \$600.00. On account of the heavy expense in the tuition account, we used \$200.00 more of State money in that account, thereby leaving \$200.00 less available in common schools and causing an overdraft in that account.

There is no other way to meet this situation except by a larger tuition appropriation. The State Law compels a payment of this account to which it contributes a maximum of \$700.00. On the basis of present enrollment, the tuition account for the next fiscal year will be at least \$3,200.00. If \$700.00 of State aid is used, \$2,500.00 remains for the town to raise. On top of that we have an overdraft of \$112.19 and a bill of \$495.68 due, making a total further expenditure of \$607.87. All together \$3,107.87 must be raised and that will not be enough if more pupils go to high school.

The common school budget I make as follows:
Teachers, janitors, conveyors, at same

wages, \$154.25 per week, 35 weeks

at \$154.25,

\$5,398.75

Special conveyance, Edes Falls, 11	
weeks at \$5.00,	55.00
Fuel,	75.00
	<hr/>
Total,	\$5,528.75
Present overdraft,	217.88
	<hr/>
Total expense,	\$5,746.63
Credit, State aid,	880.00
	<hr/>
Balance to be raised,	\$4,866.63

When I submitted estimates to the budget committee, I did not have the tuition figures for the fall term at Casco. These proved so much larger than I anticipated that a complete revision of the budget was necessary. The revised budget is as follows:

Common schools,	\$4,886.63
Tuition,	3,107.87
Textbooks,	200.00
Supplies,	236.00
Repairs and cleaning,	175.00

Steps should be taken to stop traffic by the doors of the village schoolhouses. Sooner or later somebody's child will be killed or seriously injured and too late the community will wake up to the danger which daily threatens the small children who play in the school yard.

As soon as the town feels able, money should be raised to refinish the walls of the Village grammar room. Before this is done, however, the roof on the north side of the building should be repaired. The Primary building needs a new chimney as a measure of safety and the chimney in the grammar building has no clean-out door. There are plenty of other improvements needed, but only necessities can be considered until increased incomes make increased taxes possible.

Respectfully submitted,

GUY M. MONK,

Superintendent.

REPORT OF BUILDING COMMITTEE

TOWN OF NAPLES

Your committee has tried to carry out the mandate of the voters and, having studied carefully the school situation, desires to make the following report of its findings and to make its recommendations based on those findings.

An examination of the present village school buildings shows them to be below every standard of modern school housing. In heating, lighting and sanitation, they meet only the standards of a century ago. We cannot dismiss the matter by saying that what was good enough for our grandfathers is good enough for our children. That statement is not true in a single house in town. We do not eat the same kind of foods, wear the same kind of clothes, cook by the same methods, read by the same lights or travel by the same means of conveyance.

It is easy to demonstrate the return in dollars of modern methods of farming, manufacturing and road building. It is not so easy to show the return in dollars from a good school in a good school building.

Consider lighting. Children are using their eyes in school continually. Under poor lighting conditions we find an increasing number of children suffering from eye-strain and loss of normal vision. The parent who has to buy glasses will realize that proper school lighting may save many children from a lifelong handicap and needless expense. Eyesight is a precious thing and should be conserved in every possible way.

Poorly heated and ventilated schoolrooms help the contracting and spreading of colds and throat troubles, which mean discomfort and loss of school time. It is not consistent to teach a health program in a schoolhouse which encourages sickness.

The sanitary conditions in respect to the toilets and water supply are such as to discourage the most vital

health habits. The toilets are not only freezing cold in winter, but in the warmer months of the school year their foul odor often penetrates the schoolroom.

The efficiency of instruction depends not only upon the comfort and health of the children but also upon the number of grades and the number of children in the school room. If our schools can be consolidated so as to reduce the number of grades per teacher, we shall greatly increase the efficiency of teaching and hence get greater value for the tax money expended.

In view of these facts, your committee wishes to make the following recommendations which we believe should have the serious consideration of the voters:

We recommend moving the present Village School buildings and on approximately the same site erecting a four-room wooden building, 72 feet by 44 feet, with a basement in which would be the toilets, a boiler room and two play rooms. The building to be steam heated and provided with modern sanitary equipment and standard lighting.

We have secured plans and estimates for such a building.

We further recommend that if the town votes to construct the schoolhouse, blueprints and specifications be prepared and the work be done by contract with a clause in the contract requiring that, as far as possible, local help shall be employed for all types of labor.

We further recommend that the construction be started not earlier than October first so that the building may be closed in before the weather is too cold and that the interior be finished during the winter months when work is slack.

For this building we recommend the town appropriate the sum of \$12,500.00, to be raised by the sale of long-term bonds to be retired at the rate of \$1,000.00 per year.

If interest charges are considered as rent, it would amount to \$36.42 per month the first year and grow less each year thereafter. This is very low rent charge.

The overhead on the new building would be an extra fuel cost of about \$75.00 and an extra cost for janitor service of about \$200.00. This will be partly offset by a saving of repair costs on old buildings.

Respectfully submitted,

JAMES CHUTE, Chairman,

Building Committee.

This annual report, as will be noted, is quite a change from former reports inasmuch as it hasn't been itemized as fully. This is due mostly to the new bookkeeping system which was installed at the beginning of the municipal year 1938. As almost everyone knows, this system and the annual audit is now required by law. We might add here that every dollar that has been spent is properly covered by vouchers which are on file at the selectmen's office. If there is any account or part thereof that any voter of the town would like to know more about, please feel free to come to the office at any time and any information that you desire in regard to town affairs will be explained to the best of our knowledge.

It will be noted that this year we have left out the names of dogs that have been licensed. This is due to the fact that there were so many of them we believe that every dog that was in town on April 1st has either been licensed or destroyed, which in itself is quite an improvement over past years. There were eighty-two dogs licensed.

NOTICE TO PERSONS RECEIVING SURPLUS COMMODITIES

Due to a check of persons receiving Surplus Commodities it becomes necessary to revise the lists. It is necessary that each person who desires to continue receiving this food call at the selectmen's office and fill out the proper forms for same, otherwise their names will be dropped from the lists after the next shipment.

RONALD M. EATON,

Treasurer.

REPORT OF FIRE CHIEF

During the past year the Department answered seven calls. They consisted of one false alarm, three building fires, two chimney fires, and one out-of-town fire. The apparatus has proven itself very satisfactory and dependable and for the money I believe it to be one of the best pieces of equipment around this part of the State.

Thru generous donations of money and labor the town stable has been remodeled into a suitable Fire House, which has been heated all winter; also a siren was purchased and installed on the town hall by the same means.

The truck now carries one thousand feet of large hose. While this will reach a good many of the buildings in town there are many more that it won't quite reach. With this in mind I would strongly recommend that additional hose be purchased, not all at once, but some each year. Also we are in need of an adapter and couplings that are quite necessary in many situations that arise at fires.

I wish to take this opportunity to thank those who have so generously coöperated with the department in both time and money to make it a success.

Respectfully submitted,

ELMER C. PLUMMER,

Chief.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the school committee and citizens of Naples, I submit my 19th annual report:

I believe your schools have had the most efficient, the best working organization this year they have ever had. The redistribution of pupils has worked no serious hardship on anyone. We were able to discontinue the conveyance from Kimball's Corner and board the only pupil left on that route. The money saved here was applied to the slightly increased cost of bus transportation making the total cost of transportation \$83.00 less than last year.

The teaching staff has only one change since the last report. Mr. Burleigh McKay replaced Mrs. Mendelsohn who resigned in the summer. All the teachers are graduates of training schools and all are doing their best to solve the perplexing problems which teachers must daily face.

The expenditure for high school tuition is very heavy because of an overdraft of \$112.19 and the fact that we owed Casco a bill of \$495.68 when our books closed in February, 1938. We have really paid a year and a half of tuition to Casco out of the money available this year. With all bills paid except one for \$23.33, being held for investigation, we should be able to safely reduce our appropriation by \$200.00 and apply this reduction to the repair account.

If the same appropriation is made for common schools as last year, there should be enough funds to provide a 36-week year instead of 35. This is really of more importance than might appear at first thought. Under our present school laws legal holidays and convention days on which teachers may close their schools and draw pay, take, in the aggregate, about two weeks of teaching time. Therefore, our Naples schools have only about 33 weeks of instruction against 34 in most towns.

In the budget I have allowed for only 35 weeks and have reduced the recommended appropriation by \$100.00.

The attached repair budget can be met without increased taxes. The increase in appropriation asked over last year is \$392.22. I recommend this be met by reducing the common school appropriation \$100.00; the tuition appropriation, \$200.00; the textbook appropriation, \$100.00, making a total of \$400.00 less for these accounts.

I recommend this budget to your consideration.

GUY M. MONK,

REPAIR BUDGET

The following repairs on Naples schoolhouses are badly needed. The outside of the buildings can go another year but the interiors are all in very poor condition.

I have itemized the major repairs and made an estimate of costs. If money is raised, I recommend that specifications be drawn up and the work done by contract.

STATE DEPARTMENT OF AUDIT

December 7, 1938.

To the Inhabitants of the Town of Naples:

This is to certify that this department, represented by Mr. E. H. Shute and Mr. M. W. Bragdon, has completed an audit of the accounts of your town officials for the municipal year ended February 7, 1938.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of the above date.

The schedules contained in this report are as follows:

COMMENTS

We found the accounts of your Tax Collector and Selectmen in a satisfactory condition, but in checking the accounts of your Treasurer we found a shortage of \$541.87, which the Treasurer agreed to settle for.

This shortage consisted of several items of cash which the Treasurer had received and although he had not deposited this money in the bank, had attempted to cover up.

We believe that with the use of the new bookkeeping system, together with the annual audit, acts of this nature will be eliminated to a great extent.

On February the 10th, the books were closed on another year of town business; within a short time the town reports will be published setting forth what has taken place during the past year. The town's business is growing. Twenty years ago the town's receipts for a year were under twenty thousand dollars; today they are nearly fifty thousand. The methods of handling this business has also changed and become more complicated and requires more time then ever before if it is to be handled properly. Towns are expected to coöperate more closely with the State; this is especially so in the matter of poor relief, and by the way, the relief problem is a selectman's chief headache. It requires a lot of time and running around and with the poor of other towns it is sometimes hard to collect the money due this town from them. We have had such a case this past year, but are happy to report that we have collected in full but only after a lot of work. We bring these things to your attention so that you may more fully understand and appreciate the problems that we sometimes are up against.

We opened our books this year with \$303.74 on hand. Through the coöperation of the tax collector, who has turned in the best collection in years and the coöperation of the several department heads who have kept their expenditures (in most cases) well within their appropriations, we have been able to pay all of the current obligations of the town and also pay an extra thousand dollars on the town debt and still close our books with a balance of well over eight hundred dollars. The extra thousand dollars was applied to the Songo Lock bridge loan which pays this loan in full.

There is an article in the warrant to see if the town will authorize the selectmen to sell any real estate acquired by the town for non-payment of taxes. We believe that the town should vote favorably on this article inasmuch as there are several such pieces of property whose owners have evidently abandoned them. We feel that this property should be sold so that the town can again realize taxes from it.

This year the town of Naples was awarded a "Certificate of Merit" for its 1938-39 town report by the "Maine Municipal Association", an organization comprising most of the towns in the State. This certificate is on display in the office if anyone cares to see it. While we are on the subject of town reports, we wish to say that we realize that the reports of the last two years are different than the reports of previous years, in that they are more concise and more of a financial report and perhaps do not give all the information that you would like to know. However, we have all of this on file in the office and would be only too glad to have any taxpayer at any time call and look over any account that he might wish to know more about. Remember the town's business is your business and you are paying the bill; we are only your agents.

REPORT OF FIRE CHIEF

During the past year the Department answered twenty-seven calls. They consisted of fourteen chimney fires, seven building fires, five grass fires, and one out-of-town fire. At all of these fires where it was necessary to use the pumper it proved to be as dependable as ever and I am well satisfied with its operation.

This year, as last, interested townspeople and summer guests have been generous with donations of money and labor and we have been able to get quite a lot accomplished. There has been a cement floor put in the entire fire barn, also lumber purchased to complete the hose room, new doors have been built but haven't been installed yet. Four pairs of rubber boots, four heavy raincoats, two pairs of fireproof mittens and five hundred gallons of fuel oil have been purchased with the above funds.

The town appropriation was spent for a hundred and fifty feet of two and one-half inch hose, four hundred feet of one and one-half inch hose and another ten-foot length of suction hose; also fifty feet of one-inch rubber hose besides couplings and other items.

I wish to take this opportunity to thank those who have coöperated with the department to make it a success.

Respectfully submitted,

ELMER C. PLUMMER,

Chief.

ANNUAL REPORT OF PUBLIC HEALTH NURSING SERVICE, 1939

The public health nursing service covers the nurse supervision of expectant mothers, infants, pre-school and school-age children. The report covers this general program and it is for this purpose which we are asking to have money raised to help continue the work by supplementing what is already being paid from State Bureau of Health funds. The work is carried on largely through home visits and child health conferences. These contacts are made for the purpose of giving help in meeting the health needs of the family through advice and demonstration of methods of care in the home.

The encouragement of parents in the care of the family is most gratefully received. Through the nurses' home visits, medical supervision is urged where needed for treatment or correction of defects.

The importance of using the proper diet for maintenance of health and normal growth is discussed with families and aid given in planning food budgets.

The protection of children with communicable diseases, the protection of others from those who are ill and immunization against certain diseases is stressed. Whenever possible, child health conferences are held with the local people making the choice of examining physician and the State Bureau of Health paying for his services. The nurse is always alert to any crippling condition in children and with the consent of the physician, the services of the crippled children clinics, which are held in several sections of the State, are recommended to the family.

As other defects are found, the nurse calls these conditions to the attention of the parents with recommendations to secure advice from physician or dentist regarding care or treatment. In cases where the cost of corrective work cannot be assumed by the family, the nurse endeavors to

enlist the interest of groups or agencies to assist in meeting these needs.

Chairman of May Day reported to the nurse that the schools were making posters, and doing outdoor exercises for the occasion. Asked about having a milk project and was advised to get interest in raising funds for a hot school lunch for the winter.

Two pre-school conferences were held with 16 children examined by the doctor. Nine were immunized and three vaccinated at the conference. Two children were referred to crippled children clinic for posture, and attended, and were given exercises.

Visits were made with the crippled children consultant to three of the children, and exercises given for them to do.

Demonstration of bed-making and care of mother and baby were given to two attendants of maternity cases.

During the year 66 patients were admitted to the nursing service. These included expectant mothers, infants, pre-school and school-age children. 172 visits were made to these patients.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Naples, I submit my twentieth annual report:

Your schools are running smoothly and with reasonable efficiency. Two new teachers joined the staff in September, 1939. Mrs. Catherine Fleming replaced Mrs. Flagg, who resigned, at Edes Falls, and Mrs. Lilla McAlister replaced Mr. McKay at the Village Grammar. The coöperation between pupils, parents and the teacher at the Village Grammar seems to have greatly improved. This is of advantage to all concerned.

Music is making noticeable and commendable progress in all the schools. Considerable painting and repairing was done during the summer and the school buildings are in a fairly good state of repair. The following work should be done next summer; village buildings painted on the outside; the halls in the Village Grammar repaired and painted; a cement foundation and new sills under the Grammar school shed. The roofs of the sheds at the village leak some due to the fact that the metal roofing was not properly nailed. The leaking might be stopped by turning the metal sheets over and waterproofing around the nail heads.

The cost of these jobs together with cleaning and minor repairs should not cost over \$250.00.

I am sure the public and especially the parents of conveyed children are grateful to Mr. Burnham for providing a new school bus and for his transportation of high school pupils.

It is my hope that the voters will some day see the desirability of providing 36 weeks in the school year in order to give their children a more nearly equal educational opportunity with children of other towns.

May I express my deep appreciation to members of the school committee, past and present, and to the other town officers and citizens who have made my twenty years of service a truly pleasant memory.

Respectfully submitted,

GUY M. MONK,

Superintendent of Schools.

Again the books are closed on another year of town business; this past year has been rather uneventful compared with the past several years, with a minimum of difficulty.

The tax collector has again turned in a collection even better than last year's which we thought was very good. He should be commended for his efforts along these lines as should the taxpayers themselves who have coöperated with him so fully.

There has been one personal tax of \$75.00 that the collector was unable to collect, as will be noted in his report. Your town officers saw fit to place this account in the hands of the town's legal advisor for collection inasmuch as this was a just tax and would be unfair to others in the same kind of business, if we should let this person get away with it. We trust that it will be forthcoming.

This past year, the town has had a rather ambitious road program. The Kansas road, 1.10 miles has been completed with tar, and the Thompson Camp road, 1.80 miles, is now under construction and should be completed late this spring. We have had some difficulty over a right-of-way at the Se-bago State Park, which has delayed construction somewhat, but that is now being overcome.

It might be interesting to some of you to know, that of the 54 miles of roads in town, we have 7.11 miles of State highways, 12.10 miles of State aid highways, 2.30 miles of third class highways, 2.70 miles of improved town highways, and 29.75 miles of regular town highways.

As will be noted, we have quite an overdraft in the poor account. A good part of this account (outside of hospital bills) was paid out from the beginning of the year up until the road construction started.

Our wood project was somewhat of a success in that it provided employment where it was most needed and then too, we were able to sell a good part of the wood. Some one hundred and twenty cords were cut and we have about twenty-five cords on hand, stored in back of the Grange hall.

Our snow removal contract expires in April of this year and there is an article in the warrant for you to decide what is to be done about snow removal in the future. We trust that you will give this matter your serious consideration between now and town meeting day.

A local organization has requested that an article be placed in the warrant for the purpose of employing a man full time during the summer months to work in the cemeteries and to have charge of all the cemeteries in town. He would work by the day and be responsible to the selectmen for what he did. This seems like a good idea and if the right man could be found for the job it should show results.

There is an article in the warrant to discontinue the "Appleton Chaplin road" so-called. This road is in very bad condition and hardly ever used and it would seem that it should be discontinued.

This year, as last, we are happy to report, the Town of Naples has been awarded first prize for its 1939-40 town report, by the Maine Municipal Association. We are classed in the towns that have a population of between five and seven hundred.

As in years past, we want you, as taxpayers, to feel free to come to the town office at any time that you want to look over an account that you would like to know more about. As we said last year, the town's business is your business, we are only your agents.

REPORT OF FIRE CHIEF

During the past year the department answered twenty-seven calls. They consisted of ten chimney fires, ten grass fires, five brush fires and two building fires.

I recommend the purchase of a portable pump because it would benefit many more property owners, where it is now impossible to use the large pumper.

Last year, four hundred feet of hose was added, making a total of two thousand feet available for use.

I wish to thank one and all for the donations and help during the past year.

Respectfully submitted,

ELMER C. PLUMMER,

Chief.

REPORT OF PUBLIC HEALTH NURSING SERVICE, 1940

Public health nursing is concerned with securing and maintaining better health for all members of the community. Recognizing that whatever is done to assure physical and mental health during maternity, infancy, childhood and youth will affect the health of the adult population, we have, as in the past, placed most emphasis on the work with the pregnant mother, the infant and the pre-school child.

Three visits were made during the year, at the request of the attending physician, to pre-natal patients to help them to carry out his instructions, and to help the mother in making arrangements for her confinement, and to advise as to diet and personal hygiene.

Twenty visits were made to young infants to urge the mother to keep the baby under medical care, and to advise her in the proper diet and daily schedule. Also special emphasis was placed on the prevention of communicable diseases, which take such a heavy toll in childhood. A Child Welfare Conference was held at the church, and interested women assisted with the arrangements and helped with transportation where needed, and at the conference. Seven children were examined by a physician and dentist, and the mother advised on the proper care of her child. Seventy-four visits were made to pre-school children to assist the mothers in their daily regime of the child, and the diet, sleep, and training habits.

This year exercise clinics were held at the Lake House for 4 of the crippled children in town, where demonstration of exercises and massage were given by the physiotherapist on the State staff.

While work in the schools has been limited this year, 28 school children were inspected by the nurse and 13 visits

made in the homes of the children to interest the parents in having medical care where indicated.

A new baby with crippling condition was referred to the clinic conducted by the Bureau of Health, and others urged to return to the clinic when notified.

Respectfully submitted,

ELSIE A. ANDERSON,

Field Nurse, State Bureau of Health.

REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens of the
Town of Naples, I herewith submit my annual report:*

We, the people of the United States, and of Naples, are facing a world of chaos and destruction. No one knows what the outcome will be. We believe, however, that it is our duty to maintain free education as one of the great cornerstones of internal defense, to recapture the spiritual values of freedom and to replace human and moral values above all other social objectives. Our schools bear the responsibility of teaching not only facts, but ideals; of teaching not only health, safety and fundamentals in Education, but also an appreciation of the true values of our democratic way of life. Our schools must do their part in setting up such personal standards as are necessary for effective citizenship in a democracy where the individual does count.

With no changes from last year in our staff of teachers, I find it composed of capable and enthusiastic women who realize the responsibility of their positions and who are working collectively as well as individually to give their pupils every possible opportunity. As a result their pupils show a fine spirit of enthusiasm and creditable school progress. The musical achievement of our schools is excellent, and the spelling project as conducted is along the right lines.

Our transportation problem is solved very nicely by two modern buses owned and operated by Chester Burnham and Freeland Knight at a reasonable cost.

However, with our good teachers and modern transportation facilities we are obliged to get along as best we can with antiquated and rather poorly equipped school buildings which do not compare favorably with the rest of our school program. Doubtless many are aware of the situation and in due time will give the matter careful thought.

I assure you that I wish to be of service and appreciate the fine coöperation given me by the School Committee, teachers, janitors, bus drivers, town officials and citizens.

The following recommendations have been made after careful consideration of school needs for the ensuing year :

Common schools,	\$4,700.00
High school tuition,	3,200.00
Textbooks,	100.00
Supplies,	200.00
Repairs,	250.00
Superintendent's salary,	200.00

Respectfully submitted,

MERLE R. KEYES.
